CUITISAN is  
**CONSIDERATION,**  
**PROMISE,**  
**INNOVATION**

## CUITISAN's **Philosophy**

Persistently committed to everyday safety and convenience.

### **Consideration**

CUITISAN maintains communication and efforts for a better tomorrow.

### **Promise**

CUITISAN products are manufactured of materials that are safe for the food we eat.

### **Innovation**

CUITISAN constantly evolves through research and development.

Persistence and concerns of

## CUITISAN

The efforts of CUITISAN will continue in the future.

### Beginning

In 1981, CUITISAN began as a manufacturer of household items. Through persistent R&D and trial and error, CUITISAN gained manufacturing know-how. In the 1990s, CUITISAN focused on the kitchen appliances market, and its story continues today.

### Selection

Optimum materials were used in development of the world's first four-sided airtight metal container - CRO-MOSTEEL kitchenware. CUITISAN continues to grow in line with social awareness of wellbeing and environmental pollutants emitted from kitchenware.

### Maintenance

CUITISAN never compromises in the safety of the raw materials we use, and insists on direct manufacturing by independent factories as we continue investing in the uniqueness of our products through R&D.

### Evolution

From innovative airtight metal containers that keep food fresh for a long time to enabling the use in freezer, oven, dishwasher and microwave, CUITISAN continues to create new paradigms for the kitchen.

**Encode Sans Semi Expanded**  
Innovation of stainless steel achieved by continuous research and development

**Cuitisan's Technology**  
Innovation of stainless steel available to use even microwave-ovenopment

**Cuitisan's tenacity**  
In-house production with high-quality materials completed by master craftsman's hand

# CROMOSTEEL™

The optimum material for kitchenware meets CUITISAN technology.

CROMOSTEEL is a compound word from the Italian, cromo, and the English word "steel." Used on CUITISAN products, it contains over 18% chrome, which is key to why CUITISAN products rarely rust despite everyday use. It also contains copper, valued in this case for its antibacterial properties (resists 99% of bacteria).

CROMOSTEEL products are made of premium stainless steel and include all the functionality needed in kitchenware, and can be used semi-permanently. CROMOSTEEL is a registered trademark for CUITISAN.

Safe from contaminants

Semi-permanent use

ZERO leaching of color or odor

Lightweight and strong

Antibacterial for safety

Use in freezer and oven

From oven to dishwasher to

## Microwave

CUITISAN creates new paradigms for the kitchen.

### Convenient & Microwave Safe

CUITISAN technology means its products can be used safely in the microwave. (Please read the instructions before doing so.)

### Convenient for the freezer and oven, and easily disinfected with hot water

CROMOSTEEL can be used in temperatures ranging from  $-40^{\circ}\text{C}$  to  $400^{\circ}\text{C}$  : great for hot-water disinfection and use in the oven as well as the freezer (be sure to remove the cap before oven use).

### Dishwasher safe

Store a variety of foods safely, and wash it, worry-free, in the dishwasher.

### Microwaves heat transmission

Innovative cromosteel body by Cuitisan is unlike usual way of common microwave oven which penetrates microwaves and directly touches the food, it interacts directly with microwaves to accumulate heat to body and transmit heat to its contents.

- Microwaves
- Heat (temperature)

### Interaction microwaves and moisture

General principle of microwaves comes directly into food and generates heat as it evaporate moisture with immense vibrations. However Cuitisan keeps moisture by making the food hot with accumulating heat to body unlike common microwaves.

- Microwaves
- Amount of water evaporation

**Cromosteel<sup>®</sup>**  
Advanced solution

Innovation of stainless steel achieved by continuous research and development.

## CUITISAN Airtight Container

We took more consideration and concern with storing the food and beverages that we eat and drink. The airtight container line is CUITISAN's main product group and adheres to our consideration, safety and innovation.

# SIGNATURE BELLA

*Signature Bella*

Signature Bella is the only model that uses the "Ecozen" cap which is the only eco-friendly high-transparent materials.

The cap is free of environmental contaminants such as Bisphenol A and is as clear as glass for quick identification of what's inside.

The dense molecular structure gives it far greater durability and less color/odor leaching than other plastic materials.
